

In 2013, each person in the Australian legal sector used

122kg of paper¹

the production of which involved -

1000kW of
Energy²

3 trees²

400kg
greenhouse
gas²

11,000 litres
of water²

Do you really need to print that?

1. On average as calculated in the AusLSA Annual Report - Legal Sector Environmental Insight FY2013
2. Based on 122kg copy paper from virgin pulp as estimated by the Paper Calculator developed by the Environmental Paper Network
